EDUCATION

Guangxi University | Bachelor of Engineering in Civil Engineering
Sep 2021 - Jun 2025

Core Courses: Design Principle of Concrete Structures (91, GPA 4.1), Probability Theory and Mathematical Statistics (90), Engineering Economy & Enterprise Management (86), Design Principle of Steel Structure (80), Foundation Engineering (80),, Design of High-rise Building Structure (83), Linear Algebra (80) .

Academic Performance: Weighted Average Score: 77.11/100. Successfully completed Graduation Design (Thesis) and Production Practice.
Graduation Project: BIM-based whole-process building design. Independently completed digital modeling from site planning to cost management. Awarded Third Prize in the 11th International BIM Graduation Design Innovation Competition.

COMPETITIONS & HONORS

2024 Belt and Road & BRICS Skills Development and Technological Innovation Competition
National Third Prize | Oct 2024

Competed in the "Intelligent Construction and Construction Technology Application" track, utilizing digital skills in intelligent costing, 3D modeling, construction simulation, and site layout to design and optimize solutions for complex construction tasks, collaboratively solving technical challenges within the team.

11th International University BIM Graduation Design Innovation Competition
National Third Prize | Jun 2024

Independently completed a full-process BIM forward design for a building, encompassing architectural modeling, site construction simulation, project management, construction organization design, and engineering costing. Systematically mastered methods for managing the entire lifecycle of engineering projects using digital tools.

INTERNSHIP & PRACTICAL EXPERIENCE

School of Civil Engineering and Architecture, Guangxi University | Administrative Assistant
Aug 2025 - Til Now

Administrative Support: Responsible for daily office operations, efficiently handling the organization, archiving, summarization, and circulation of documents to ensure accurate and timely information management.
Conference Coordination: Assisted in the preparation and execution of various academic and administrative meetings, including material preparation, on-site coordination, and minute-taking to ensure efficient proceedings.
Process Observation & Reflection: Gained in-depth understanding of university administrative workflows. Proactively identified and considered potential nodes where digital tools could enhance efficiency in traditional office and academic support processes.

SKILLS & CERTIFICATIONS

Professional Skills: Foundational BIM modeling, intelligent construction applications in civil engineering, basic concepts of project management and costing. Solid structural analysis capability and foundation in mathematical statistics.
Software Proficiency: Proficient in Microsoft Office Suite (Word, Excel, PowerPoint).
Language: Standard Mandarin (passed Mandarin Proficiency Test). Good English reading and writing skills for professional literature review.
